1. The abstract of the disclosure is objected to because on lines 5-7, "A communication station corrects the signals the reference stations have received" is unclear. Correction is required. See MPEP § 608.01(b).
2. Claims 1-6, 8-14, 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, lines 8-12; claim 14, lines 9-12, "and a positioning information offering apparatus is provided to transmit said signal sent from said quasi-zenith satellite and a positioning information of said positioning system" is unclear.

As to claim 8, lines 7-14, "and a positioning apparatus is provided to detect a position...and to transmit said composite signal" is unclear.

As to claim 16, lines 8-16, "and a positioning apparatus is provided to detect position...and to transmit said composite signal" is unclear.

Claims 2-6, 9-13 depend from indefinite antecedent claims.
